We are pleased to present the first municipal information bulletin .Our principle objective is to keep all citizens informed as to the important advances which are taking place in Llíber. We are working to create a new and up to date web page, and although not yet operational we hope to have this up and running shortly.

3. PLAN GENERAL

Following two visits made to Conselleria we wish to inform you that on June 17 the Directora General de Gestión del Medio Natural has signed the Document of reference for the General Plan of Llíber; this has been returned to the Town Hall together with the following documentation:

Informe de la Confederación Hidrográfica del Júcar

Informe de la EPSAR

Informe de la Dirección Territorial de Medio Ambiente en Alicante

Informe de la Dirección Territorial de Cultura en Alicante

BULLETIN OF TOWN HALL INFORMATION, LLÍBER

Informe de la Dirección General de Urbanismo

Planos.

In addition, on 27 July and 10 August we had the first contacts with the team responsible for drafting the general Plan. The next appointment with them will be during the month of September to continue progress and arrange a timescale for the PG. Also on 10 August we met with the Head of Catastro and the Area Head of Suma to discuss the means by which the houses can be included in Catastro. There will be an informative meeting when all the team has been formed.

We are grateful to the British Consul, Paul Rodwell, for his visit to Llíber on 12 August when he met with residents and later with the Mayor, José Juan Reus Reus, and the Councilor for European Residents, Suzanne Mcallister. The new position of councilor for European Residents has been created with the express purpose of helping residents individually with facilitating documentation. Appointments Tuesday/Friday 11:00 - 13:00 h.

4. REPAIRS TO THE PUMP FOR THE DEFINITIVA WELL AND INSTALLATION OF DIFFERENT MECHANISMS TO AVOID FUTURE BREAKDOWNS

The frequent and costly repairs to the well pump were caused by insufficient electricity supply, which was not adequate for efficient functioning, therefore we have increased the power of the electricity to the transformer. We have also installed a type of thermostat that will disconnect the power if the pump temperature rises too high to prevent damage to the pump. All these measures are to avoid future breakdowns and repairs.

We also wish to inform you that we have signed a contract with the company PROAGUAS to analyse the water provided for human consumption by the Llíber water supply.

5. EMPLOYMENT POLICY

Thanks to the grant from Diputación of Alicante for the purpose of stimulating employment in those municipalities of up to 2,000 inhabitants, in Llíber we have been able to employ 4 workers to undertake work consistent with maintenance, conservation and care of public spaces, parks, gardens and recreation areas. The cleaning of rural roads and repair and improvement to public spaces in Llíber is also underway.

6. ORDINARY MEETING OF THE COUNCIL 20/07/2011

AGENDA

- Approval of previous Act
- To give account of the Decrees of the Mayor.
- To give account of the Resolutions of the Councillor for Urban Affairs.
- To give account of the Reference Document of the General Plan of Llíber, signed by the Directora General de Gestión del Medio Natural dated 17 June 2011.
- Any further business.
- Requests and questions.

We can not close this first edition of BIM without thanking our Councillor for Fiestas, José Miguel Reus Reus, and all the helpers for their tireless effort and hard work against the clock to achieve the Fiesta Programme in honour of San Roque. MANY CONGRATULATIONS TO THEM ALL!!
